

Kart radiators and accessories

CATALOGUE NEW PRODUCT RANGE 2020

RETAIL PRICES

LAST UPDATED 01/2020

em-technology.it

RADIATOR EM-06 SMALL

It is the smallest and lightest radiator in the catalog, weighing only 2.250 kg. This makes the EM-06 radiator **the ideal choice for single-gear classes**, when the outside temperature is not excessively high.

[Read More](#)

SKU: EM-28

Price: € 175,59

RADIATOR EM-01 MEDIUM

Measuring a maximum of 250X435X40 mm, the **EM-01** model places itself in the middle of the EM-Technology range in terms of size. It comes with a **deflector fitted as standard**.

[Read More](#)

SKU: EM-01

Price: € 179,80

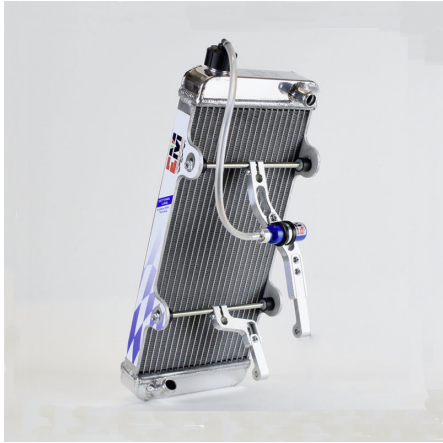

RADIATOR EM-02 SUPERIOR

The **EM-02** model is the largest radiator in the EM-Technology range. With a size of 290X435X40 mm. It's **perfect for the KZ categories**. It is **equipped with a deflector** as standard.

[Read More](#)

SKU: EM-02

Price: € 199,50

RADIATOR EM-08 FOR ROK GP/ ROK JUNIOR

The **EM-08** radiator is made in compliance with the **ROK** regulation for the **ROK GP** and **ROK Junior** classes but can be used in **all single-gear categories** as it is able to ensure proper cooling at any time of the year.

[Read More](#)

SKU: EM-29

Price: € 194,75

RADIATOR EM-09 FOR ROK SHIFTER/ ROK DVS

The **EM-09** radiator is compliant with the **ROK** regulation for the **ROK DVS** and **Shifter ROK** categories. It is also an excellent solution for the **KZ** categories, specifically for those with limited room available for the radiator. It comes with a **deflector mounted as standard**.

[Read More](#)

SKU: EM-34

Price: € 198,01

RADIATOR EM-09 PRO

The EM-09 PRO radiator **guarantees optimal cooling at any time of the year for the ROK DVS, Shifter ROK and KZ categories**. Compared to the [EM-09](#) model, it differs in its **radiator core**. It comes **fitted with a deflector**.

KIT SUPPORT EM-06

Made of aluminium and machined from solid, [EM-06 radiator](#) supports, thanks to the telescopic structure, they allow the radiator to be positioned and tilted precisely.

[Read More](#)

SKU: EM-27

Price: € 69,67

KIT SUPPORT EM-01 MEDIUM

Made of aluminium and machined from solid, [EM-01 radiator](#) supports, thanks to the telescopic structure, they allow the radiator to be positioned and tilted precisely.

[Read More](#)

SKU: EM-05

Price: € 69,67

KIT SUPPORT EM-02 SUPERIOR BIG

Made of aluminium and machined from solid, [EM-02 Superior Big radiator](#) supports, thanks to the telescopic structure, they allow the radiator to be positioned and tilted precisely.

[Read More](#)

SKU: EM-06

Price: € 69,67

KIT SUPPORT EM-08 ROK GP/ROK JUNIOR

Made of aluminium and machined from solid, the supports for [EM-08 radiators](#), thanks to the telescopic structure, allow perfect positioning and perfect inclination of the radiator itself.

[Read More](#)

SKU: EM-39

Price: € 69,67

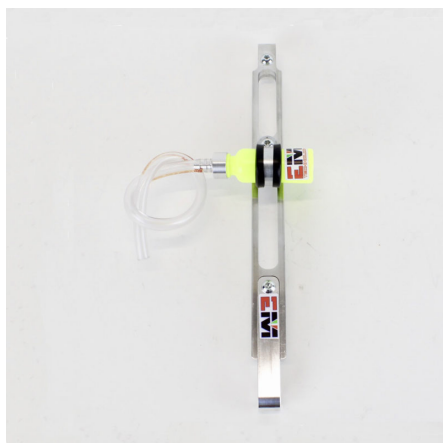

KIT SUPPORT EM-09 ROK SHIFTER/ROK DVS

Made of aluminium and machined from solid, the supports for [EM-09 radiators](#), thanks to the telescopic structure, allow perfect positioning and perfect inclination of the radiator itself.

SKU: EM-26

Price: € 12,00

SILENTBLOCK

Anti-vibration grommet mounted on a screw, specific for mounting [EM Technology radiator supports](#).

[Read More](#)

SKU: EM-13

Price: € 1,74

CAP RADIATOR SUITABLE FOR IAME RADIATOR

The Cap radiator suitable for IAME radiator a calibration of 1 bar.

[Read More](#)

SKU: EM-15

Price: € 7,92

DEFLECTOR FOR ALL EM RADIATORS

Used for ensuring the optimisation of air-flow, the rear deflector is capable of diverting the hot air from the rear tyre and facilitating its outflow from behind the radiator.

[Read More](#)

SKU: EM-37

Price: € 20,00

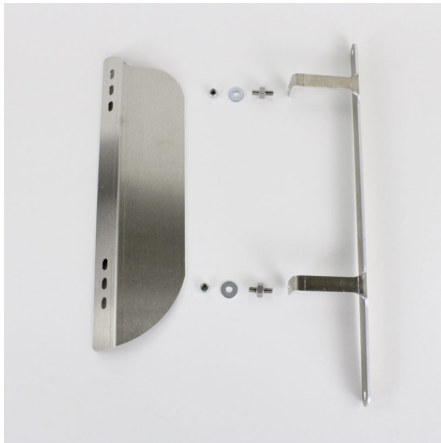

DEFLECTOR FOR RADIATOR X-30 MEDIUM

Useful to ensure the optimization of air flow, the rear deflector deviates hot air, thereby preventing it from investing the rear tyre and favouring its outflow from behind the radiator.

[Read More](#)

SKU: EM-63

Price: € 28,00

DEFLECTOR FOR RADIATOR X-30 BIG

Useful to ensure the optimization of air flow, the rear deflector deviates hot air, thereby preventing it from investing the rear tyre and favouring its outflow from behind the radiator.

[Read More](#)

SKU: EM-64

Price: € 28,00

DEFLECTOR FOR RADIATOR OTK SMALL

Useful to ensure the optimization of air flow, the rear deflector deviates hot air, thereby preventing it from investing the rear tyre and favouring its outflow from behind the radiator.

[Read More](#)

SKU: EM-65

Price: € 28,00

RECOVERY TANK YELLOW

Radiator water recovery tank, made out of plastic. Can also be used as a tank to be fitted to the tank breather. In the latter case, it is necessary to drill a hole in its upper part. Yellow.

[Read More](#)

SKU: EM-24 GIALLO

Price: € 7,00

RECOVERY TANK GREEN

Radiator water recovery tank, made out of plastic. Can also be used as a tank to be fitted to the tank breather. In the latter case, it is necessary to drill a hole in its upper part. Green.

[Read More](#)

SKU: EM-24 VERDE

Price: € 7,00

RECOVERY TANK BLUE

Radiator water recovery tank, made out of plastic. Can also be used as a tank to be fitted to the tank breather. In the latter case, it is necessary to drill a hole in its upper part. Blue.

[Read More](#)

SKU: EM-24 BLU

Price: € 7,00

RECOVERY TANK RED

Radiator water recovery tank, made out of plastic. Can also be used as a tank to be fitted to the tank breather. In the latter case, it is necessary to drill a hole in its upper part. Red.

[Read More](#)

SKU: EM-24 ROSSO

Price: € 7,00

RECOVERY TANK BLACK

Radiator water recovery tank, made out of plastic. Can also be used as a tank to be fitted to the tank breather. In the latter case, it is necessary to drill a hole in its upper part. Black.

[Read More](#)

SKU: EM-33 NERO

Price: € 70,00

SCREEN EM-01 RED

It's the simplest, lightest and most reliable solution to allow the driver to regulate the airflow through the radiator at any time. Made of materials resistant to petrol, oils and to the operating temperatures of the radiator itself, moves vertically thanks to a pulley system and is easy to install thanks to specific double ended screws.

[Read More](#)

SKU: EM-03 ROSSO

Price: € 70,00

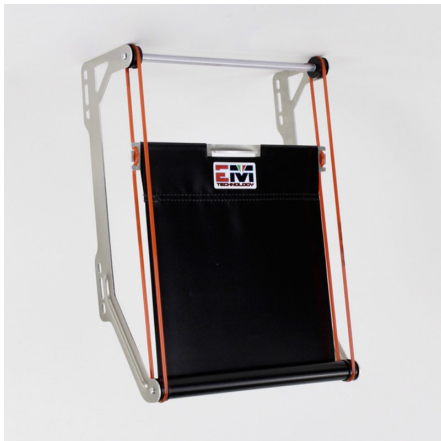

SCREEN EM-01 BLUE

It's the simplest, lightest and most reliable solution to allow the driver to regulate the airflow through the radiator at any time. Made of materials resistant to petrol, oils and to the operating temperatures of the radiator itself, moves vertically thanks to a pulley system and is easy to install thanks to specific double ended screws.

[Read More](#)

SKU: EM-03 BLU

Price: € 70,00

SCREEN EM-01 BLACK

It's the simplest, lightest and most reliable solution to allow the driver to regulate the airflow through the radiator at any time. Made of materials resistant to petrol, oils and to the operating temperatures of the radiator itself, moves vertically thanks to a pulley system and is easy to install thanks to specific double ended screws.

[Read More](#)

SKU: EM-03 NERO

Price: € 70,00

SCREEN EM-02 RED

It's the simplest, lightest and most reliable solution to allow the driver to regulate the airflow through the radiator at any time. Made of materials resistant to petrol, oils and to the operating temperatures of the radiator itself, moves vertically thanks to a pulley system and is easy to install thanks to specific double ended screws.

[Read More](#)

SKU: EM-04 ROSSO

Price: € 70,00

SCREEN EM-02 BLUE

It's the simplest, lightest and most reliable solution to allow the driver to regulate the airflow through the radiator at any time. Made of materials resistant to petrol, oils and to the operating temperatures of the radiator itself, moves vertically thanks to a pulley system and is easy to install thanks to specific double ended screws.

[Read More](#)

SKU: EM-04 BLU

Price: € 70,00

SCREEN EM-02 BLACK

It's the simplest, lightest and most reliable solution to allow the driver to regulate the airflow through the radiator at any time. Made of materials resistant to petrol, oils and to the operating temperatures of the radiator itself, moves vertically thanks to a pulley system and is easy to install thanks to specific double ended screws.

[Read More](#)

SKU: EM-04 NERO

Price: € 70,00

SCREEN EM-08 ROK GP/ROK JUNIOR RED

It's the simplest, lightest and most reliable solution to allow the driver to regulate the airflow through the radiator at any time. Made of materials resistant to petrol, oils and to the operating temperatures of the radiator itself, moves vertically thanks to a pulley system and is easy to install thanks to specific double ended screws.

[Read More](#)

SKU: EM-35 ROSSO

Price: € 70,00

SCREEN EM-08 ROK GP/ROK JUNIOR BLUE

It's the simplest, lightest and most reliable solution to allow the driver to regulate the airflow through the radiator at any time. Made of materials resistant to petrol, oils and to the operating temperatures of the radiator itself, moves vertically thanks to a pulley system and is easy to install thanks to specific double ended screws.

[Read More](#)

SKU: EM-35 BLU

Price: € 70,00

SCREEN EM-08 ROK GP/ROK JUNIOR BLACK

It's the simplest, lightest and most reliable solution to allow the driver to regulate the airflow through the radiator at any time. Made of materials resistant to petrol, oils and to the operating temperatures of the radiator itself, moves vertically thanks to a pulley system and is easy to install thanks to specific double ended screws.

[Read More](#)

SKU: EM-35 NERO

Price: € 70,00

SCREEN EM-09 ROK SHIFTER/ROK DVS RED

It's the simplest, lightest and most reliable solution to allow the driver to regulate the airflow through the radiator at any time. Made of materials resistant to petrol, oils and to the operating temperatures of the radiator itself, moves vertically thanks to a pulley system and is easy to install thanks to specific double ended screws.

[Read More](#)

SKU: EM-36 ROSSO

Price: € 70,00

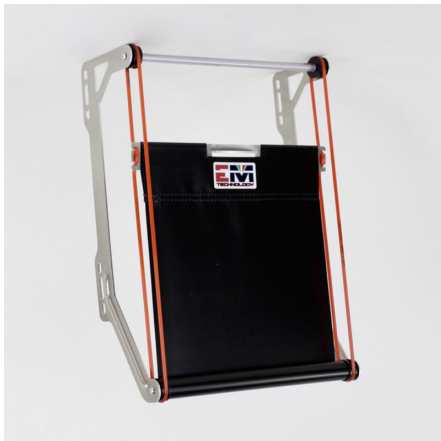

SCREEN EM-09 ROK SHIFTER/ROK DVS BLUE

It's the simplest, lightest and most reliable solution to allow the driver to regulate the airflow through the radiator at any time. Made of materials resistant to petrol, oils and to the operating temperatures of the radiator itself, moves vertically thanks to a pulley system and is easy to install thanks to specific double ended screws.

[Read More](#)

SKU: EM-36 BLU

Price: € 70,00

SCREEN EM-09 ROK SHIFTER/ROK DVS BLACK

It's the simplest, lightest and most reliable solution to allow the driver to regulate the airflow through the radiator at any time. Made of materials resistant to petrol, oils and to the operating temperatures of the radiator itself, moves vertically thanks to a pulley system and is easy to install thanks to specific double ended screws.

[Read More](#)

SKU: EM-36 NERO

Price: € 70,00

SCREEN EM-IAME MINI RED

It's the simplest, lightest and most reliable solution to allow the driver to regulate the airflow through the radiator at any time. Made of materials resistant to petrol, oils and to the operating temperatures of the radiator itself, moves vertically thanks to a pulley system and is easy to install thanks to specific double ended screws.

WATER PUMP OR RED

Aluminum water pump, machined from solid , designed and built to guarantee the flow of water. To be used with [EM Technology radiators](#).

[Read More](#)

SKU: EM-09 ROSSO

Price: € 105,00

WATER PUMP OR BLUE

Aluminum water pump, machined from solid , designed and built to guarantee the flow of water. To be used with [EM Technology radiators](#).

[Read More](#)

SKU: EM-09 BLU

Price: € 105,00

WATER PUMP OR ORANGE

Aluminum water pump, machined from solid , designed and built to guarantee the flow of water. To be used with [EM Technology radiators](#).

[Read More](#)

SKU: EM-09 ARANCIO

Price: € 105,00

WATER PUMP HTD RED

Aluminum water pump, designed and built to guarantee the flow of water. To be used with [EM Technology radiators](#).

[Read More](#)

SKU: EM-08 ROSSO

Price: € 105,00

WATER PUMP HTD BLUE

Aluminum water pump, machined from solid , designed and built to guarantee the flow of water. To be used with [EM Technology radiators](#).

[Read More](#)

SKU: EM-08 BLU

Price: € 105,00

WATER PUMP HTD ORANGE

Aluminum water pump, machined from solid, designed and built to guarantee the flow of water. To be used with [EM Technology radiators](#).

[Read More](#)

SKU: EM-08 ARANCIO

Price: € 105,00

D55 AXLE ALUMINUM PULLEY RED

In aluminum, machined from solid, with a 55 mm diameter located near the seat of the O-Rings. Specifically recommended for EM Technology cooling systems.

[Read More](#)

SKU: EM-12 ROSSO

Price: € 25,00

D55 AXLE ALUMINUM PULLEY BLUE

In aluminum, machined from solid, with a 55 mm diameter located near the seat of the O-Rings. Specifically recommended for EM Technology cooling systems.

[Read More](#)

SKU: EM-12 BLU

Price: € 25,00

D55 AXLE ALUMINUM PULLEY ORANGE

In aluminum, machined from solid, with a 55 mm diameter located near the seat of the O-Rings. Specifically recommended for EM Technology cooling systems.

[Read More](#)

SKU: EM-12 ARANCIO

Price: € 25,00

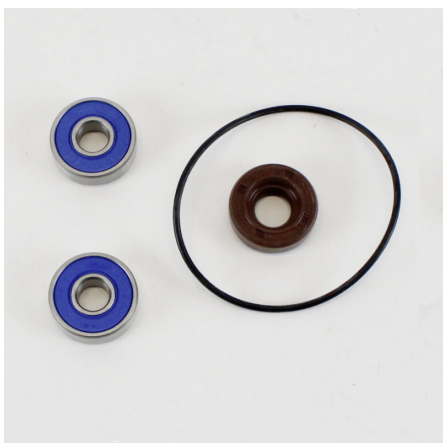

HTD AXLE PULLEY

[Read More](#)

SKU: EM-07

Price: € 26,50

KIT FOR OVERHAULING EM WATER PUMP

Kit comprising 2 bearings, 1 oil seal and 1 O-Ring seal, for overhauling EM water pumps.
